Hello there, Takurou here. This is my third original HS girl work.

I've wanted to draw an energetic-type girl for a while, so I made it into a manga. How did you like it? Please send your opinions to my twitter (@mixtakuro), or to my BBS. I'd be extremely happy if you did. Right now I'm thinking of doing another original HS girl book lol. Please look forward to it. Please check out my first work "Please spare me...." And the second, "Want to try my body?" if you'd like!
